

Title: **ICD-10-PCS II - Assigning Some Codes**

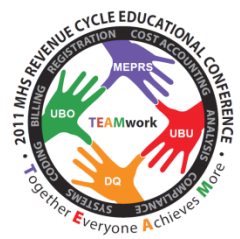

Session: **T-5-1530**

# Objective

---

- Actually try creating a few ICD-10-PCS codes

# How the Class Will Work

---

- Quick review of the last class
- We'll walk through the steps for one or two together
- In groups of three you will go through the steps
- We'll go over the answers (most of the time there are multiple ICD-10-PCSs for the most common MHS ICD-9-CM procedure codes)
- After we finish the most common MHS procedures, we will do some in each of the sections we have not used

# ICD-10-PCS

---

- How many characters in ALL PCS codes?
- What is the first character?
  - Body part
  - Body system
  - Approach
  - Section
  - Device
  - Qualifier
  - Root operation
- What comes first, the letters or the numbers?
- What is the character for medical and surgical section?

# ICD-10-PCS

---

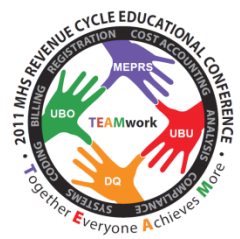

- For removal of lesion from external right ear – what is the body system?
- For destruction of an endometrial implant of the abdominal wall – what is the body system?
- For resection of a carotid body – what is the body system?
- For excision of the glomus jugulare, or the coccygeal glomus, or the thyroid, or pituitary or pineal body – what is the body system?
- For excision of the stapes?

# These Were the Most Common Principal Procedures in the MHS in FY 2010

- We will walk through the first one, circumcision together

| Procedure | FY10 SDR 1st procedure, >700                                  | FY10 Qty (1st pro) |
|-----------|---|--------------------|
| 64.0      | Circumcision  | 20,223             |
| 75.69     | Repair of other current obstetric laceration                  | 18,770             |
| 99.55     | Prophylactic administration of vaccine against other diseases | 16,307             |
| 74.1      | Low cervical cesarean section                                 | 13,546             |
| 73.59     | Other manually assisted delivery                              | 7,227              |
| 93.94     | Respiratory medication administered by nebulizer              | 4,840              |
| 99.04     | Transfusion of packed cells                                   | 4,412              |
| 73.09     | Other artificial rupture of membranes                         | 4,188              |
| 88.72     | Diagnostic ultrasound of heart                                | 3,472              |

# ICD-10-PCS

| 1       | 2              | 3 | 4         | 5 | 6         | 7 |
|---------|----------------|---|-----------|---|-----------|---|
| Section | Root Operation |   | Approach  |   | Qualifier |   |
|         | Body System    |   | Body Part |   | Device    |   |

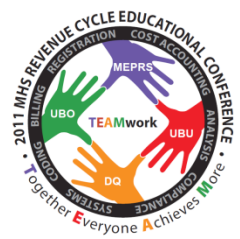

- Circumcision
  - Section?
  - Body system?
  - Root operation
  - Body part?
  - Approach?
  - Any devices left after the healing is complete?
  - Is it diagnostic?

# ICD-10-PCS Sections

- What section would a circumcision be in?

|   |  |
|---|--|
| 0 | Medical and Surgical                             |
| 1 | Obstetrics                                       |
| 2 | Placement  |
| 3 | Administration                                   |
| 4 | Measurement and Monitoring                       |
| 5 | Extracorporeal Assistance and Performance        |
| 6 | Extracorporeal Therapies                         |
| 7 | Osteopathic                                      |
| 8 | Other Procedures                                 |
| 9 | Chiropractic                                     |

| 0J Subcutaneous Tissue and Fascia    |  |

Note the 0 as the lead character – these are the Medical and Surgical Section body parts

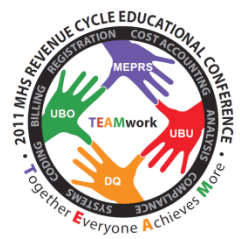

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision

|   |   |
|---|---|
| <b>Alteration</b>                         | Definition: Modifying the anatomic structure of a body part without affecting the function of the body part   |
| <b>Bypass</b>                             | Definition: Altering the route of passage of the contents of a tubular body part  |
| <b>Change device in</b>                   | Definition: Taking out or off a device from a body part and putting back an identical or similar device in or on the same body part without cutting or puncturing the skin or a mucous membrane |
| <b>Control postprocedural bleeding in</b> | Definition: Stopping, or attempting to stop, postprocedural bleeding  |
| <b>Creation</b>                           | Definition: Making a new genital structure that does not take over the function of a body part  |

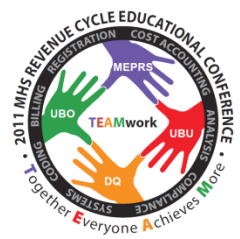

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision

|                    |   |
|--------------------|---|
| <b>Destruction</b> | Definition: Physical eradication of all or a portion of a body part by the direct use of energy, force, or a destructive agent              |
| <b>Detachment</b>  | Definition: Cutting off all or a portion of the upper or lower extremities  |
| <b>Dilation</b>    | Definition: Expanding an orifice or the lumen of a tubular body part  |
| <b>Division</b>    | Definition: Cutting into a body part, without draining fluids and/or gases from the body part, in order to separate or transect a body part |
| <b>Drainage</b>    | Definition: Taking or letting out fluids and/or gases from a body part  |

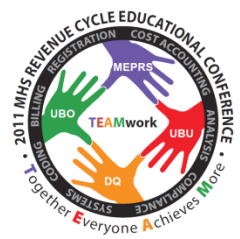

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision

|                      |  |
|----------------------|--|
| <b>Excision</b>      | Definition: Cutting out or off, without replacement, a portion of a body part                              |
| <b>Extirpation</b>   | Definition: Taking or cutting out solid matter from a body part  |
| <b>Extraction</b>    | Definition: Pulling or stripping out or off all or a portion of a body part by the use of force            |
| <b>Fragmentation</b> | Definition: Breaking solid matter in a body part into pieces   |
| <b>Fusion</b>        | Definition: Joining together portions of an articular body part rendering the articular body part immobile |

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision

|                               |   |
|-------------------------------|---|
| <b>Insertion of device in</b> | Definition: Putting in a nonbiological appliance that monitors, assists, performs, or prevents a physiological function but does not physically take the place of a body part |
| <b>Inspection</b>             | Definition: Visually and/or manually exploring a body part  |
| <b>Map</b>                    | Definition: Locating the route of passage of electrical impulses and/or locating functional areas in a body part  |
| <b>Occlusion</b>              | Definition: Completely closing an orifice or the lumen of a tubular body part   |

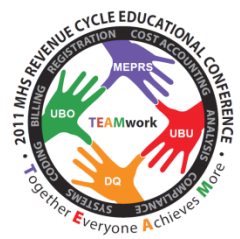

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision

|                               |  |
|-------------------------------|--|
| <b>Reattachment</b>           | Definition: Putting back in or on all or a portion of a separated body part to its normal location or other suitable location                    |
| <b>Release</b>                | Definition: Freeing a body part from an abnormal physical constraint   |
| <b>Removal of device from</b> | Definition: Taking out or off a device from a body part  |
| <b>Repair</b>                 | Definition: Restoring, to the extent possible, a body part to its normal anatomic structure and function   |
| <b>Replacement</b>            | Definition: Putting in or on biological or synthetic material that physically takes the place and/or function of all or a portion of a body part |

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision

|                              |  |
|------------------------------|--|
| <b>Reposition</b>            | Definition: Moving to its normal location, or other suitable location, all or a portion of a body part                     |
| <b>Resection</b>             | Definition: Cutting out or off, without replacement, all of a body part  |
| <b>Restriction</b>           | Definition: Partially closing an orifice or the lumen of a tubular body part   |
| <b>Revision of device in</b> | Definition: Correcting, to the extent possible, a portion of a malfunctioning device or the position of a displaced device |

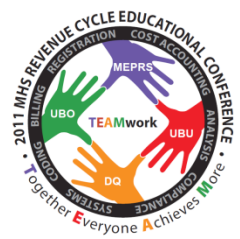

# ICD-10-PCS Root Operation

| 1       | 2              | 3         | 4        | 5      | 6         | 7 |
|---------|----------------|-----------|----------|--------|-----------|---|
| Section | Root Operation |           | Approach |        | Qualifier |   |
|         | Body System    | Body Part |          | Device |           |   |

- Circumcision, the options are alteration, destruction, excision, resection

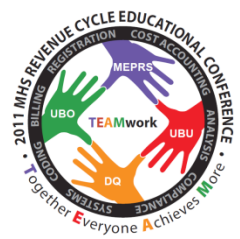

|                        |   |
|------------------------|---|
| <b>Supplement</b>      | Definition: Putting in or on biological or synthetic material that physically reinforces and/or augments the function of a portion of a body part   |
| <b>Transfer</b>        | Definition: Moving, without taking out, all or a portion of a body part to another location to take over the function of all or a portion of a body part  |
| <b>Transplantation</b> | Definition: Putting in or on all or a portion of a living body part taken from another individual or animal to physically take the place and/or function of all or a portion of a similar body part |

# Circumcision

---

- Look it up in the alphabetic index:
- Circumcision
  - See Resection, Female Reproductive System 0UT
  - See Resection, Male Reproductive System 0VT
- Resection (page 104)
  - By Body System – Male Reproductive 0VT
  - By Body Part – (page 105, right column) prepuce 0VTT

| 88.01     | Computerized axial tomography of abdomen                              | 912                |
| 79.36     | Open reduction of fracture of tibia and fibula with internal fixation | 902                |
| 96.04     | Insertion of endotracheal tube  | 865                |
| 44.38     | Laparoscopic gastroenterostomy  | 864                |
| 72.79     | Other vacuum extraction   | 822                |
| 89.41     | Cardiovascular stress test using treadmill                            | 763                |
| 87.41     | Computerized axial tomography of thorax                               | 757                |
| 75.62     | Repair of current obstetric laceration of rectum and sphincter ani    | 753                |
| 80.51     | Excision of intervertebral disc                                       | 702                |

# Summary

---

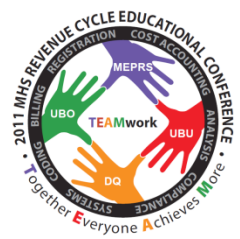

- ONLY for inpatient procedures
- Does not include diagnosis
- Does not include laboratory
- Does not include sizes (e.g., of infants, lacerations)
- Each separate procedure has its own code
- Learn the root operations – then using the index is a breeze
- Starts 1 Oct 2013
- Have fun

# Quiz

---

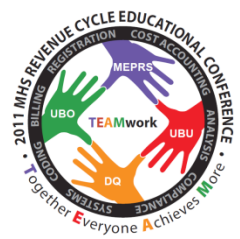

- Section for:
  - Termination of an ectopic pregnancy
  - Chemotherapy
  - Knee arthroscopy
  - Ultrasound
  - Removal of cerumen

# Quiz Answers

---

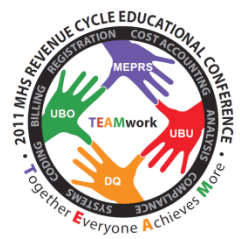

- Section for:
  - Termination of an ectopic pregnancy 10D28ZZ
  - Chemotherapy 3E06
  - Knee arthroscopy 0 (inspection is root operation)
  - Ultrasound – trick – therapy is in 6, imaging is in B
  - Removal of cerumen – F Physical Rehabilitation and Diagnostic Audiology

# Cerumen Management

- F09Z3XZ
